

## Mary Sunita Dutto

Each child when she/he opens the eyes into the world deserves the warmth of welcoming hands to embrace her/him with love. Some children have been denied of these rights. Mary Sunita Dutto too has been abandoned by her parents to be called an orphan due to her disability and being a girl child. Mother Theresa of Calcutta quoted, “the biggest disease of today is the feeling of being unwanted.” Sunita suffered this disease of being unwanted and in addition to this the blindness. But God did not abandon her but showed people who accepted her with joy. She came to Jyothi Seva as tiny little baby of two and

a half years old. Her eyes were in deep sorrow looking for the affection and warmth of a mother's care and support of a father. As she started to grow developing a loving relation with sisters and felt at home, then the Joy started to sprout in her and radiated to others too.

Sunita was enrolled into Jyothi Seva School during the academic year 1998-1999 at the age of 4 and was admitted to Nursery. From childhood she has been very active, cheerful and loving child. Having been a low vision student she is doing well in her studies securing the 1<sup>st</sup> division in all the levels of school and college.

She has completed her Diploma in Human Resource Management and is pursuing her Masters in Commerce. Her dream is to join the management sector of banking to become a successful person in life. She also wants to do her Ph.D. There were few articles written by Sunita on the Evolution of Financial inclusion in India, Concept of GST in India etc. to the National Journal.

Sunita plays Piano and sings melodiously and is a good dancer. She has completed Hindustani music exams.

The tough situations of life make a person dream for a better future and prepare a path to make it true. That is what Mary Sunita Dutto is trying to achieve with all her heart.
