

## **JYOTHI SEVA SOCIETY- SCHOOL AND HOME FOR THE BLIND**

This report is to give you an idea of all the good work that has been undertaken in our school for the year 2015-16 with your generous financial assistance.

We are happy that many of our students are doing very well in their academics. One of our students BalaPriya, Passed with 81% in her SSLC board examinations. 5 of our students also secured first class in their final exams. Your financial contribution has enabled us to provide our students with the best possible educational devices. We are very grateful to your organization for your contribution.

Computer education is a very essential part of the curriculum, and we are doing our best in providing the students an opportunity to gain knowledge of how to use computers. In this regard, we are happy to inform you that with the financial assistance rendered by you, we have bought 2 computers for the school this year. This has helped us in meeting the shortage of computers for our students and we are able to give them the best and an effective training.

With your generous sponsorship, we were able to send two of our staff to Delhi to attend a 2 day workshop on "towards digital inclusion" conducted by Techshare India. Mr. Mark Paul took part in this workshop too. It was a very good experience for them to understand the latest technological developments in accessibility and teaching aids for the visually impaired. It was also an important opportunity to know many successful visually impaired who had done well in life and listen to all their hardships to reach where they are now. We were also able to get contacts of different developers of teaching aids for the visually impaired and it has been very useful for us in procuring new and updated materials to teach our students.

Trip to Delhi helped Sr.Anita and Praveen to get idea of the availability of different teaching aids for science and social studies and to place order for both of our schools for Bangalore and Meghalaya, which are really good and gives more information and idea for the children.

Your valuable assistance has gone a long way in making a difference in our students lives, and we are able to give them the very best of everything that they require for their studies.

We express our sincere gratitude for your support which will go a long way in helping our students in the coming years. May God Bless you all for your kind and generous heart.

Sr.Clare
